ANNOUNCEMENTS

REDUCE RISK OF CORONAVIRUS INFECTION

Frequent hand-washing, covering the nose and mouth when coughing or sneezing, avoiding contact with infected individuals, not touching the eyes, nose, and mouth, and disinfecting hard surfaces are the most effective ways to reduce the risk of spreading infections to one another. **Please avoid the usual handshakes and hugs temporarily. Hand sanitizer is available at the Welcome Center.** Tips on how to wash your hands most effectively are hanging above each sink in the building.

Thank you for taking these extra precautions to help keep each other healthy. It's another way to show your love to one another!

.....

MANY THANKS

Harriet Wensel would like to thank those who helped with the **Celebration of Life for our beloved brother, Doug Oliver**, by providing food, helping with prep and serving, and assisting with set-up and clean-up. You are all so appreciated! Our love and prayers are still with Doug's family and friends at this time.
